Independent Auditor's Report

RSM US LLP

Board of Directors National Forest Foundation

Report on the Financial Statements

We have audited the accompanying financial statements of National Forest Foundation (the Foundation), which comprise the statement of financial position as of September 30, 2020, the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of National Forest Foundation as of September 30, 2020, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Report on Summarized Comparative Information

We have previously audited the Foundation's 2019 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated January 21, 2020. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 10, 2021, on our consideration of the Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Foundation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control over financial reporting and compliance.

Notes to Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies

Nature of activities: National Forest Foundation (the Foundation) was established by Congress on November 16, 1990, pursuant to the National Forest Foundation Act, as a nonprofit, charitable organization. The purpose of the Foundation is to collect gifts to be used to support the Forest Service of the U.S. Department of Agriculture (USDA) and to conduct educational and technical programs that promote a higher quality of life and further purposes of the national forests.

A summary of the Foundation's significant accounting policies follows:

Basis of accounting: The accompanying financial statements are presented in accordance with the accrual basis of accounting, whereby unconditional support is recognized when received, revenue is recognized when earned and expenses are recognized when incurred.

Basis of presentation: The financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification). As required by the Not-for-Profit Entities Topics of the Codification, Balance Sheet and Income Statement, the Foundation is required to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions.

Cash and cash equivalents: For purposes of the statement of cash flows, the Foundation considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash and certificates of deposit that mature within three months held in the investment portfolios are excluded from cash and cash equivalents and reported in investments.

Financial risk: The Foundation maintains its cash in bank deposit accounts which, at times, may exceed federally-insured limits. The Foundation has not experienced any losses in such accounts. The Foundation believes it is not exposed to any significant financial risk on cash.

The Foundation invests in professionally managed portfolios that contain various securities that are exposed to risks, such as market, interest and credit. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near-term could materially affect investment balances and the amounts reported in the financial statements.

Receivables: Receivables stem from unconditional contributions and grants received by the Foundation, federal contracts and reimbursable grants. Unconditional contributions and grants to be received after one year are discounted, based on estimated future cash flows, at a discount rate commensurate with the risks involved. Amortization of the discounts is included in support and revenue. At September 30, 2020, the present value discount was \$19,673. An allowance for uncollectible receivables is provided based upon management's judgment, including such factors as prior collection history, type of contribution and nature of the fund-raising activity. Receivables are written off when deemed uncollectible. Recoveries of receivables previously written off are recorded when received. At September 30, 2020, the allowance for doubtful accounts was \$269,339.

Conditional contributions and similar grants are not recognized as support until such times as the conditions are substantially met. The Foundation is the recipient of \$10,492,431 of conditional promises to give at September 30, 2020. The Foundation will earn and receive the conditional funds contingent upon the Foundation meeting certain milestones documented in the agreements.

Notes to Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Investments: Investments in money market funds, certificates of deposit, equities, mutual and exchange traded funds and the hedge fund are carried at fair value. Cash held within the investment portfolio is reported at cost. To adjust the carrying value, unrealized and realized gains and losses are included in the accompanying statement of activities. The hedge fund is reported at estimated fair value based on a percentage of ownership practical expedient provided by the investment manager. The Foundation believes the carrying amount of this financial instrument is a reasonable estimate of fair value. Because the hedge fund is not readily marketable, its estimated value is subject to additional uncertainty and, therefore, value realized upon disposition may vary significantly from the currently reported value.

Property, equipment and leasehold improvements: Property and equipment purchases and donations are capitalized and depreciated on a straight-line basis over their estimated lives, generally three to five years. Leasehold improvements are depreciated over the lesser of the life of the asset or lease. The Foundation capitalizes all equipment and improvements with a cost of \$2,500 or more.

Paycheck protection program loan: The Foundation received proceeds from the Paycheck Protection Program (PPP) during the year ended September 30, 2020. The Foundation initially recognized the funds as a refundable advance and is presented as a liability on the accompanying balance sheet. The Foundation will reduce the refundable advance balance and recognize revenue (other income) once the forgiveness conditions have been substantially met. The Foundation considers the conditions to be substantially met once forgiveness determination has been received, The Foundation elected this treatment as the Foundation expects to meet the PPP's eligibility criteria for forgiveness.

Support and revenue: Unconditional contributions and unconditional state and local grants received are recorded as support with or without donor restrictions, depending on the existence and/or nature of any donor restrictions. All donor-restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified net assets without donor restrictions and reported in the accompanying statement of activities as net assets released from restrictions. Conditional contributions and grants are recognized when all conditions are realized or as qualifying expenses are incurred. Contributions and grants received with de minimis conditions are recorded as support when received.

The Foundation receives grants from federal agencies for various purposes. Federal grant awards revenue and receivable are recognized as expenses have been incurred for the purposes specified by an approved grant. The Foundation defers federal grant payments under approved awards to the extent that the payments received exceed expenses incurred for the purposes specified under the grant restrictions. Contract revenue is comprised of total contracted labor and other direct costs (ODCs). Labor revenue is recognized in accordance with total units worked for each employee multiplied by that employee's contracted hourly or daily rate. ODC revenue is recognized as qualifying expenses are incurred.

Special event revenue consists of contributions, silent auction proceeds, sponsorships and registrations. Revenue is recognized at the time of the event.

Donated services and assets: Contributions of services are recognized in the financial statements as inkind contributions if the services enhance or create nonfinancial assets or require specialized skills, are provided by individuals possessing those skills and would typically be purchased if not provided by donation. These services are recorded at their estimated fair values at the date of donation and are recognized in the financial statements as in-kind contributions. Donated assets are recorded at their estimated fair values at the date of donation and are recognized in the financial statements as contributions and presented on the accompanying statement of activities based on the resource provider.

Notes to Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Expense allocation: Program and supporting services have been presented on a functional basis in the accompanying statement of activities and functional expenses. Certain costs, such as depreciation, rent and occupancy costs, and information technology have been allocated among programs, general and administrative, marketing, development and communications based on salary by department.

Income taxes: The Foundation is generally exempt from federal income taxes under the provisions of Section 501(c)(3) of the Internal Revenue Code. In addition, the Foundation qualifies for charitable contribution deductions and has been classified as an organization that is not a private foundation. Income, which is not related to exempt purposes, less applicable deductions, is subject to federal and state corporate income taxes. The Foundation did not have any net unrelated business income for the year ended September 30, 2020.

Management evaluated the Foundation's tax positions and concluded that the Foundation has taken no uncertain tax positions that require adjustment to the financial statements.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of support and revenue and expenses during the reporting period. Actual results could differ from those estimates.

Prior year information: The financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended September 30, 2019, from which the summarized information was derived.

Adopted accounting pronouncements: In June 2018, the FASB issued Accounting Standards Update (ASU) 2018-08, *Not-for-Profit Entities (Topic 958): Clarifying the Scope of the Accounting Guidance for Contributions Received and Contributions Made.* This new standard clarifies the scope and the accounting guidance for contributions received. The amendments in this ASU should assist entities in 1) evaluating whether transaction should be accounted for as contributions (nonreciprocal transactions) within the scope, or as exchange (reciprocal) transactions subject to other guidance and 2) determining whether a contribution is conditional. The ASU has different effective dates for resource recipients and resource providers. Where the Foundation is a resource recipient, the ASU is applicable to contributions received for year ended September 30, 2020, and the Foundation has adopted this amendment on a modified prospective basis with no effect on the financial statements.

Where the Foundation is a resource provider, ASU 2018-08 is effective October 1, 2020. The Foundation has not yet evaluated the effect that the ASU will have on the financial statements.

Notes to Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Pending accounting pronouncements: In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective and permits the use of either a full retrospective or retrospective with cumulative effect transition method. In August 2015, the FASB issued ASU 2015-14, which defers the effective date of ASU 2014-09 one year, making it effective for annual reporting periods beginning after December 15, 2019.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. The guidance in this ASU supersedes the leasing guidance in Topic 840, *Leases*. Under the new guidance, lessees are required to recognize lease assets and lease liabilities on the statement of financial position for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the statement of activities. The new standard is effective for fiscal years beginning after December 15, 2021.

Subsequent events: The Foundation evaluated subsequent events through February 10, 2021, which is the date the financial statements were available to be issued.

Note 2. Liquidity and Financial Availability

Financial assets available for general expenditure, that is without donor or other restrictions limiting their use, within one year of the statement of financial position date, comprise of the following:

Cash and cash equivalents	\$ 6,462,231
Receivables, net	6,441,110
Investments	19,839,097
Total liquidity	32,742,438
Less:	
Investments subject to withdrawal restrictions	1,076,456
Net assets with donor restrictions	18,411,904
Board-designated quasi-endowment net assets*	876,354
	20,364,714
Financial assets available to meet cash needs	
for general expenditures within one year	\$ 12,377,724

^{*} The Board-designated net assets can be used to meet general expenditures at the discretion of the Board of Directors

The Foundation regularly monitors liquidity required to meet its annual operating needs and other contractual commitments while also striving to maximize the return on investment of its funds not required for annual operations. The foundation has \$3,048,000 available line of credit to draw down on if needed.

Notes to Financial Statements

Note 3. Property, Equipment, and Leasehold Improvements

Vehicles	\$ 1,080,000
Furniture and equipment	238,155
Leasehold improvements	11,210
	1,329,365
Less accumulated depreciation	520,179
	\$ 809,186

Note 4. Related Party Transactions

During the year ended September 30, 2020, the Foundation received approximately \$190,000 of contribution support from Board members and their affiliated organizations.

Note 5. Fair Value Measurements and Investments

The Foundation follows the Codification Topic, Fair Value Measurement. The topic applies to all assets and liabilities that are being measured and reported on a fair value basis. The topic establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosure about fair value measurements. The topic enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The topic requires that assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities
- Level 2: Observable market-based inputs or unobservable inputs corroborated by market data
- Level 3: Unobservable inputs that are not corroborated by market data

In determining the appropriate levels, the Foundation performs a detailed analysis of the assets and liabilities that are subject to the topic, Fair Value Measurement.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy at September 30, 2020:

The money market funds, equities and mutual and exchange traded funds are classified as Level 1 instruments as they are actively traded on public exchanges with identical assets.

Notes to Financial Statements

Note 5. Fair Value Measurements and Investments (Continued)

Certificates of deposit are classified as Level 2 instruments as there are not quoted market prices in active markets for identical assets. Their value is determined using models and other valuation methodologies, which are corroborated by market data.

The deferred compensation plan liability is based on the fair market value of the deferred compensation plan assets, which are observable inputs; however, the liability is not publicly traded and are, therefore, considered a Level 2 item.

The Foundation's hedge fund, valued using a practical expedient, totaled \$1,076,456 at September 30, 2020. At September 30, 2020, there are no unfunded commitments. The amount invested is subject to rolling three-year lock-up periods, and the current one will expire during the fiscal year ended September 30, 2021. There is a 90-day notice period for withdrawal before the current lock up period ends. The fund invests the majority of its assets in common and preferred stocks in companies based in the United States and internationally.

Note 6. Net Assets With Donor Restrictions

Net assets with donor restrictions at September 30, 2020, and changes in net assets with donor restrictions during the year ended September 30, 2020, are as follows:

Notes to Financial Statements

Note 6. Net Assets With Donor Restrictions (Continued)

Management has interpreted the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) as requiring the preservation of the fair value of original donor-restricted contributions as of the date of the gift, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as net assets with donor restrictions: (a) the original value of cash contributions to donor-restricted permanent endowment and (b) the discounted value of future cash contributions to donor-restricted permanent endowment, net of allowance for uncollectible pledges. The remaining portion of donor-restricted cash contributions are classified as net assets with donor restrictions until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted cash contributions:

The purposes of the Foundation and donor-restricted endowment fund The duration and preservation of the fund General economic conditions
The possible effect of inflation and deflation
The expected total return from income and the appreciation of investments Other available financial resources
Investment policies

Investment policy: The Foundation has adopted an investment policy for endowment net assets that attempts to provide both preservation and appreciation.

Spending policy: Earnings for the endowment are reflected in endowment net assets, until appropriated for expenditure in a prudent manner by the Board of Directors.

The endowment net asset composition by type of fund as of September 30, 2020, is as follows:

		thout Donor		With Donor	
	R	estrictions	F	Restrictions	Total
Board-designated endowment funds Donor-restricted endowment funds:	\$	876,354	\$	-	\$ 876,354
Coley Burke		-		3,337,471	3,337,471
	\$	876,354	\$	3,337,471	\$ 4,213,825

For the year ended September 30, 2020, the Foundation had the following endowment-related activities:

	Without Donor Restrictions		With Donor Restrictions		Total	
Endowment net assets, beginning of year Additions Net investment gain	\$	870,178 - 6,176	\$	2,774,496 6,000 556,975	\$	3,644,674 6,000 563,151
Endowment net assets, end of year	\$	876,354	\$	3,337,471	\$	4,213,825

Notes to Financial Statements

Note 6. Net Assets With Donor Restrictions (Continued)

Funds with deficiencies: From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. In accordance with U.S. GAAP, deficiencies of this nature are reported in net assets with donor restrictions. As of September 30, 2020, there were no such deficiencies.

Board designated endowment: Net assets not subject to donor-imposed restrictions (without donor restrictions), but designated as part of the quasi-endowment fund by the Board of Directors.

Note 7. Retirement Plans

The Foundation sponsors a 403(b) defined contribution pension plan covering all of its eligible full-time employees. To be eligible, an employee must have completed one year of service and must be an active contributor to the plan. The plan is administered by an outside agent. Employee participation is voluntary, and contribution amounts are determined by the participants. Under the guidelines for 501(c)(3) nonprofit corporations, the contribution amounts are payroll-deducted on a pre-tax basis. After meeting eligibility requirements and completing one year of service, the Foundation contributes up to 5% of the participant's salary to the plan. The Foundation's contribution was approximately \$108,000 for the year ended September 30, 2020.

The Foundation also sponsors a 457(b) deferred compensation plan for its former President. The Foundation made no contributions to the plan during the year ended September 30, 2020.

Note 8. Lines of Credit

The Foundation has a \$1,500,000 line of credit that will expire on August 14, 2022. The line of credit accrues interest at the prime lending rate and is secured by the assets of the Foundation. The outstanding balance on the line of credit was \$500,000 at September 30, 2020.

The Foundation has an agreement with a private funder that allows for the Foundation to borrow a maximum of \$2,598,000, with minimum borrowings of \$100,000, to fund specific forest restoration activities in connection with the project located in the North Yuba River Watershed of the Tahoe National Forest in California. The agreement matures on November 1, 2023. The outstanding principal balance was \$400,000 at September 30, 2020, and bears no interest.

Note 9. Refundable Advance

Under the CARES Act, the Foundation applied for the Paycheck Protection Program (PPP) loan with Small Business Administration (SBA) and received \$562,300 during the year ended September 30, 2020. The PPP loan has maturity date of April 9, 2022 with 18 monthly payments of \$31,650 to begin on November 9, 2020. At September 30, 2020, the PPP funds were recognized as a refundable advance of \$562,300 on the balance sheet.

The Foundation intends to use the full amount of the PPP funds for payroll and other qualified expenses listed to be forgiven per the terms of the refundable advance. Management expects the full amount to be forgiven during the year ending September 30, 2021 and the Foundation's accounting policy on the funds is disclosed in Note 1 to the financial statements. The Foundation determined it qualified for the program based on the criteria established by the SBA before applying and the Foundation intends to meet the PPP's eligibility criteria for forgiveness.

Notes to Financial Statements

Note 10. Contingencies

Federal awards: The Foundation participates in a number of federally-assisted grant programs that are subject to financial and compliance audits by the federal government or its representatives. As such, there exists a contingent liability for potential questioned costs that may result from such audits. Management does not anticipate any significant adjustments as a result of such audits.

COVID-19 Pandemic: On January 30, 2020, The World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus included travel restrictions, and quarantines in certain areas, and forced closures for certain types of public places and business. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, include the geographical area in which the Foundation operates. Management is continually monitoring the potential impact of the pandemic on the Foundation. Management will review and adjust planned expenditures should it determine the outbreak will significantly impact the financial position and activities of the Foundation.
