

# CFLRP SOCIO-ECONOMIC MONITORING: BREAKOUT GROUP FRAMING QUESTIONS

- What social or economic components are missing that would be critical to monitor and document?
- How is the collaboration itself being or should be monitored? Who does this?
- What are ways in which your collaborative is adapting the process in response to new info or conditions?
- Whose and what and whose decisions would be impacted by SE monitoring results? In other words: who is or might be the constituency for the socio-economic monitoring?
