

## SGMCC Leadership and Membership Selection Process

### Steering Committee Membership and Leadership

- Steering Committee would be an elected body of the full Collaborative, and will include:
  - Chair from each of the four Ad Hoc Committees
  - Other self-nominated members
- Suggested size is 6-8 members (4 committee chairs and 2-4 “at large” members).
- Steering Committee Member Selection
  - The Collaborative would elect the “at large” members from those nominated or self-nominated.
  - Steering Committee members would operate under a two-year term. Half of the body *initially* selected that the Steering Committee would be on a one-year term so that the first terms would expire on alternating years. The Collaborative would elect Steering Committee members every year.
- Steering Committee Leadership Selection
  - The Collaborative will elect a Steering Committee chair and vice chair *from* those elected as Steering Committee members.

### Collaborative Membership

- Collaborative membership selection
  - An organization or entity may be nominated or self-nominate for membership in the Collaborative. The nominee should represent a stakeholder group not yet reflected in the current Collaborative membership.
  - The Steering Committee approves of which group will be put forward for a full Collaborative election.
